

*As the new Division 7 Representative for the Broadcast Education Association, I am committed to strengthening the membership, visibility, and influence of our division.*

*One of my passions is workforce development and the vital role our communication and media classes play in preparing students for real-world careers but am simultaneously a champion of the critical thinking and scholarship that exists within BEA and this Division.*

*My goal is to grow Division 7 by promoting collaboration, sharing best practices, and ensuring that BEA fully recognizes the value and impact of Division 7 educators who empower learners to enter and thrive in the media workforce.*
